STRUCTURE VISION EXHIBITING AT DECOM SUPPLY EVENT

Structure Vision Ltd are pleased to have been invited to exhibit their NuPlant™ software for simulating Nuclear Decommissioning at the Decommissioning Suppliers Event at the De Vere Whites Hotel, Bolton, on Thursday 22nd November 2012.

Come along and find out how NuPlant™ can be used to:

- Build and navigate 3D virtual models of nuclear facilities
- Determine optimal cutting, processing and packing methods for nuclear waste
- Calculate dose uptake and gamma flux from radioactive containers
- Generate 'what-if' scenarios and custom reports
- **Drive down the costs of decommissioning.**

For more information, and register to attend this event, please visit www.decommsupplyevent.co.uk

Further Information

Please contact David Knight at d.knight@structurevision.com for more information on how NuPlant™ can be used to model complex Nuclear Decommissioning problems.

Videos of NuPlant in action are available at http://www.youtube.com/user/StructureVisionLtd
